THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D. C. 20505

DCI/IC 1509-74

Office of the Director

01 JUN 1974

Major General Harold R. Aaron, USA
Assistant Chief of Staff for Intelligence
Department of the Army
Room 2E464
The Pentagon

Dear General Aaron:

As you may be aware, I am encouraging the Intelligence Community and my Intelligence Community Staff to make increased use of the Consolidated Intelligence Resources Information System (CIRIS). I believe this system can be very useful in a number of ways, including support of the Intelligence Resources Advisory Committee (IRAC).

My staff is presently processing the various inputs that will constitute CIRIS 74. This task is time-consuming and requires great care and attention to detail because of the varying quality of inputs received.

This year, one office in the Community submitted CIRIS data of such high caliber that special recognition is merited. That office is the one that reviews and forwards Army's portion of the GDIP. Mr. Louis Krebs, in your Program and Budget office, is to be commended for the highly professional and conscientious job he did. Please pass on to Mr. Krebs my commendation and appreciation for his excellent work.

Sincerely,

(Signed)

DANIEL O. GRAHAM, LTG, USA

Summary

1. Purpose: To forward letter of commendation to MG Harold R. Aaron, USA, in recognition of high quality data provided by the Army.
2. Discussion: The utility of the Consolidated Resources Information System (CIRIS) is wholly dependent upon the validity of the data provided by organizations in the intelligence community. Ordinarily we have to "scrub" the data submitted before it can be placed in the file and used.

The quality of the data provided by the Army for the CIRIS 74 update was exceptionally high. Recognition of the person responsible is most appropriate.

3. Recommended Action: Signature by DCI on letter to MG Aaron.
